Planned Furniture Promotions
Attention: Roy Hester

Dear Roy:

Thanks for your company's assistance in liquidating my furniture store. You and your employees have made my last experience in the furniture business a pleasant one.

Rick Turbyfield performed outstandingly in coordinating our sale. He really knows and understands the furniture business from top to bottom: sales preparation and marketing to personalized interaction with our customers.

Lora Liddell repeatedly executed her responsibilities as your office manager with excellence. Her knowledge of computers and attention to detail made a complex job look easy.

Both of these PFP associates worked long and hard hours and, yet, maintained a positive and friendly attitude throughout the liquidation process. They demonstrated, expected, and required these same attributes of all of their staff. A great PFP team!

Thanks again for your help.

Sincerely,

Greg Christy
President
